

Mini Centrifuge N600A

NB-12-0045A

Mini Centrifuge N600A

@4,000 & 6,000rpm

(Including 1 rotor for 6-1.5/2.0ml tubes, 6-0.5ml tubes and 2-8x0.2ml PCR tubes)

N600A mini-centrifuge is with a "three-in-one" composite rotor. Users can complete different experiments without changing the rotor. For example, the mixing of 1.5ml centrifuge tubes and the instantaneous centrifugation of PCR tubes can be carried out at the same time, saving the user's time. Small size with transparent shell, light and easy to carry. The maximum speed of 6,000rpm/4,000rpm can be selected to meet the needs of laboratory reagent mixing and sample instant centrifugation. Humanized design, stop when the lid is opened, and run automatically when the lid is closed.

FEATURES

- 3-in-1 rotor design, suitable for:
 - 6x1.5/2.0 ml tubes
 - 6x0.5 ml tubes
 - 2x8x0.2 ml PCR strip tubes
- Quick release rotor tub, allows for easy rotor exchange
- Using micro DC motor and carbon fiber rotor
- Mute technology, low noise operation
- Two speed options: 4,000 & 6,000 rpm

Mini Centrifuge N600A

NB-12-0045A

TECHNICAL SPECIFICATIONS

Capacity	6x1.5/2.0 ml, 6x0.5 ml tubes and 2x8x0.2 ml PCR Strip rotor
Two speed options	4000 rpm & 6000 rpm
Max. RCF	1,200xg (4,000 rpm) / 2,000xg (6,000 rpm)
Dimension (D×W×H) mm	135x147x120 mm
Weight	0.7 kg
Power	AC100~240 V, 50/60 Hz

The following Accessories are available :

NB-12-0045A-01	6x1.5/2.0 ml, 6x0.5 ml tubes and 2x8x0.2 ml PCR Strip rotor
