

Mouse anti-Tubulin (Alpha), clone TU-02 (Monoclonal)

Clone no. TU-02

MONOSAN

Product name	Mouse anti-Tubulin (Alpha), clone TU-02 (Monoclonal)
Host	Mouse
Applications	ELISA, IHC-fr
Species reactivity	human, mouse, pig, plants (a.o. Nicotiana tabacum), rat
Conjugate	-
Immunogen	microtubular protein from pig brain
Isotype	IgM-K
Clonality	Monoclonal
Clone number	TU-02
Size	100 ug
Concentration	100 ug/ml
Format	-
Storage buffer	PBS with 0.02% sodium azide
Storage until expiry date	2-8°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Mouse anti-Tubulin (Alpha), clone TU-02 (Monoclonal)

Clone no. TU-02

MONOSAN

Additional info

TU-02 reacts with the N-terminal domain of alpha-tubulin. Tubulin isotypes have been identified with tissue specific expression. Immunocytochemical studies using several mAbs revealed remarkable heterogeneity of tubulin within various nervous tissues. TU-02 reacts with tubulin in fixed tissues only, not in unfixed or live tissues or cells. Interphase microtubules are also stained by TU-02 in fixed tissues.
