

Datasheet: NB-47-02273-20ML

Description:	RABBIT SERUM:Preservative Free
Name:	RABBIT SERUM
Format:	Preservative Free
Product Type:	Serum
Quantity:	20 ml

Product Details

Applications This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			
Immunohistology - Resin	▪			
Immunoassay	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form	Whole serum - liquid
Preparation	Normal rabbit serum, 0.45µm filtered
Preservative Stabilisers	None present

Product Information Normal rabbit serum specifically for use in immunohistopathology. This serum has been processed to minimize haemolysis and filtered to 0.45µm to remove protein aggregates.

NB-47-02273-20ML can be used as blocking sera, control sera or a serum additive in dilution buffers.
